# Hyd-A-Way

## High Profile Aesthetics & Visibility

Interior poly liner retains material, moisture, and prevents corrosion.

Loading door prop for easier material loading.

Hyd-A-Way is our original BearTight container, bear tested and certified!

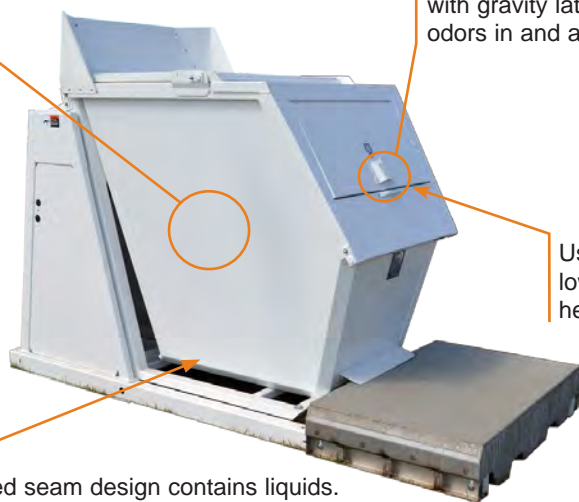

Designed to work with existing container footprint.

Galvanneal steel panels and an Axalta powder paint finish ensures a long life, for lower lifecycle costs & total cost of ownership.

Sturdy lightweight door with gravity latch keeps odors in and animals out.

User friendly, low loading height.

Sealed seam design contains liquids.

## Clean & Efficient Collection

Unique "No-Touch-to-Dump"™ method maintains container aesthetics.

Innovative vehicle-powered hydraulic arm achieves rapid loading and convenient pick-up points for a highly efficient, low cost operation.

(Leasing options available.)

Hyd-A-Way containers are strategically placed in high volume areas such as restaurants and grocery stores and have proven to substantially increase participation and recovery rates.

The Hyd-A-Way system is an ideal compliment to curbside programs offering convenient drop-off solutions for residents from multi-family dwellings.

## Specifications

### HL2T

**Capacity**  
1.8 m<sup>3</sup> (2 yd<sup>3</sup>)  
**Lifting Capacity\***  
1 360 kg (3 000 lbs)  
**Weight (container)**  
680 kg (1 500 lbs)

**Weight (concrete step)**  
545 kg (1 200 lbs)  
**Length**  
3 050 mm (120 in)  
**Width (container)**  
1 219 mm (48 in)

**Width (concrete step)**  
1 111 mm (52 in)  
**Height**  
2 040 mm (80-1/2 in)  
**Loading Height**  
1 020 mm (40 in)

\*Designed with organics containment in mind, the 2 cubic yard volume of the HL2 Hyd-A-Way prevents overloading of hydraulic dump cylinder; 4 and 6 cubic yard Hyd-A-Way (HL4 and HL6) containers are not recommended for organics containment applications due to the additional volume capacity.
