# Transtor

## Residential / Commercial

- ✓ Can accept residential users or full size collection units.
- ✓ Upper deck is a clean, user-friendly interface.
- ✓ Animal proof design eliminates costs associated with mobile container lids and tarping.

## Minimized Transfer Costs

- ✓ Rapid cycle time - load 53 yd<sup>3</sup> (40 m<sup>3</sup>) in less than 60 seconds.
- ✓ Integrates easily with compacting trailers to maximize payload up to 55,000 lbs (25 mt).
- ✓ Eliminates expensive tipping floors, loaders and manpower.

## Flexible and Expandable

- ✓ Small footprint minimizes development costs.
- ✓ Multiple units allow source separation.
- ✓ Modular design allows easy expansion.
- ✓ Wireless control packages available for ease of operation.
- ✓ With an 8' grade separation, Transtor is ideal for **roll-off retro fit** applications.

## Delivery and Installation

- ✓ Transtors can be operational within days of delivery.
- ✓ Pre-engineered site plans and retaining walls, along with minimal grade separation, reduce project costs and timelines.

The main lid retracts to accept material from any collection vehicle or individual users.

Reduce roll-off transportation costs with our simple Transtor conversion kit.

Integrates with walking floors and compaction trailers.

Optional railings, windscreens, power packs.

Optional stainless steel panels for extended service life.

Tight lid seal keeps moisture out and odors in.

High side walls for protected dumping.

Electric hydraulic power packages available.

Sealed hopper panels prevent leachate from escaping.

## Specifications

### TS400

**Capacity (Volume)** 40 cu yd (30 cu m)  
**Capacity (Weight)** 20 000 lbs (9 100 kg)  
**Cycle Time** less than 60 seconds

### TS500

**Capacity (Volume)** 53 cu yd (40 cu m)  
**Capacity (Weight)** 30 000 lbs (13 600 kg)  
**Cycle Time** less than 60 seconds

### TS500LG

**Capacity (Volume)** 35 cu yd (27 cu m)  
**Capacity (Weight)** 22 000 lbs (10 000 kg)  
**Cycle Time** less than 60 seconds
